### FOR FORCING PURPOSES

Our grower tells us to recommend for forcing purposes the one-year-old clumps. They will give best results. They are more economical for the grower to buy on account of the price and shipping charges and give best results.

Our Delphinium are specially handled so that they give wonderfully good results when forced properly under glass.

**"Pride of Orion."** This Fuchsia is a strong, vigorous and upright grower, with pure white flowers which are extremely double, very large and attractive, being 2 to 2½ in. long. The plant comes into full bloom in early April, thus making it extremely profitable for late Easter and Mothers Day, when plants in 5-in. and 6-in. pots sell readily at \$3.00 per plant to \$10.00. The blossoms do not drop off in the house but remain on even to form the seed pods.
